

Your Firefox profile cannot be loaded. It may be missing or inaccessible - Fix

Author : admin

?

When I opened firefox I was offered that firefox cleans some data. Pressing on it took a long so I *killed firefox process from Windows taskmanager (taskmgr)*. . Next time Firefox was started I got the error (warning):

Your Firefox profile cannot be loaded. It may be missing or inaccessible"

Firefox version is **29.0.1**.

Once the dialog, Firefox fails to further open. To fix **Your Firefox profile cannot be loaded. It may be missing or inaccessible** press *windows-key+R* to invoke
