Kragulevo's Trip :)

Yesterday Night me and Nomen decided to spend the night in the house on my village "Kragulevo". It's a nice place to be.We drinked beer smoked cigarettes have a walk around the village after we arrived somewhere around 21:40. In the morning we decided to go to the forest it was a hard job to wake up Nomen, all the time he was repeating "Please leave me to sleep more 5 minutes" and after 5 minutes the same sentence. In the end I 20 or 30 minutes later get out of bed. We drinked coffee and walked in the beginning of the Wood (It's recharging). in 08:15 after a 20 or 25 minutes walk we went back to Dobrich. Yesterday I went to a Doctor because I have a constant pains around my stomach. He assigned me some health tests for tomorrow. I hope God hasn't allowed that I had a serious sickness. Kragulevo is connected with a lot of memories from my young years. I'm regretting a lot I didn't spend more time during the last summers when I was still going to school. I remember so many great moments with my Grandpa (Peace be upon him.). And I miss him a lot Grandpa Marin (Mino). Was a great example for me for a lot of things like attitude towards live, love towards beings and also ppl service. Actually now After I believed I realise this virtues match perfect with some recommendations the St. Apostles give for us to live to be a pleasent in the eyes of the Lord God.END-----
