

A list of Christian Metal website resources on the Net for Christian Metal lovers

Author : admin

I've been an old times Metal head. The moment I accepted Jesus Christ as a Lord and Saviour and been visited by the Lord's Holy Ghost grace, my life changed severely. I found out most of the metal bands, I used to be regularly listening to is against Christ and anti-christian in essence, I still however hold my love for Metal as my teenage years were dominated by *Metal Music*. Happily I found there is plenty of nice Metal music a Metal head could enjoy that are written for glorification of Christ and hence did not have the negative spiritual anti-christian charge that is so typical for a lot of the bands in the metal music world. Recently I'm not listening to as much music as few years from now but still every now and then I like playing some of my old Christian metal loved bands. I was maintaining a small list of Christian metal nice bands I found and playlisted on youtube. If you're a metal geek you might enjoy [my old christian metal playlist here :\)](#).
